Continuous LearningIntegrityIntegrityTeam

LeadershipIntegrityCommunicationIntegrityStatistical AnalysisIntegrity and AccountabilityTechnologically adept, with a strong foundation in AI and machine learning, gained through rigorous academic coursework and hands-on projects. 1. Offering expertise in designing and implementing machine learning models, data analysis, and leveraging AI technologies to solve complex problems. Bringing forth a positive attitude, a passion for innovation, and a readiness to learn new technologies. Proven efficiency with the ability to quickly learn and navigate any computer software program, making me well-prepared to further the mission of a forward-thinking company. LY STRENGTHS AND EXPERTISE GOOD RESURENCY,airo, N.C., A.K.O. A.P.P.,334, Egypt 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 18, 20, 21, 22, 24, 22. Competitive Programming Programming Programming Skills RESurprise Problem solving . A recommendation from a committee is something the House must treat seriously, but it is not an amendment to a proposal. Leveraging cutting-edge advancements in deep learning and transformer-based architectures, these models were designed to offer robust and accurate assessments of semantic relatedness between pairs of sentencesFor a school project, I developed an advanced machine -- <https://github.com/FarrahTharwat/Advanced-Machine-Learning-Mathematics/Advance> d House Pricing Prediction using SVM and Support Vector Machines (SVM) for the purpose of predicting house prices using linear regression and support vector machines (SVMs).For a high-performance computing project,I developed a machine learning model to predict house prices by using both linear and Support This comprehensive project involved extensive data preprocessing, model training, and evaluation to ensure precise and reliable predictions based on various features of the houses. For a school project, I developed a machine learning model to --<https://github.com/FarrahTharwat/Machine-Learning-23> House pricing prediction using linear regression For a school project, I developed a machine learning model to predict house prices using linear regression. This project involved data preprocessing, model training, and evaluation to provide accurate price predictions based on various features of the houses. As part of a school project, I developed a fully functional --<https://github.com/FarrahTharwat/VideoSharing> Video Sharing (YouTube Clone) Application with Database As part of a school project, I developed a fully-functional video-sharing application similar to YouTube. This project involved building both the front-end and back-end components, including a robust database to handle user data,

video uploads, and streaming capabilities. For a challenging school project in Natural Language --<https://github.com/FarrahTharwat/Sentence-Similarity>.

Itude Tracker Java Desktop Application with Database 1, 1, 2, 3, 4, 5, 6, 7, 8, 9, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 24, 25, 29, 30, 32, 34, 35, 38, 39, 39. Work fulfils a number of basic needs for an individual such as collective purpose, social contact, status, and activity. citation A person with a disability is often found to be socially isolated and work is one way to reduce isolation. This application allows users to report, track, and manage software bugs in a systematic manner. Movie-TV Bug Shows Reviews Front-End Web Development Project 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21 or 21, 21, 22, 24, 25, 24 or 24, 26, 28, 29, 34, 35, 39, 38, 45, 46, 39 or 48, 38. Performance practice One of the main considerations when performing Prince Igor is the question of whether to include Act 3, much of which was composed by Glazun This project involved designing and implementing a user-friendly interface using HTML, CSS, and JavaScript to fetch and display data on movies and TV shows from
