I.I.I [linkedin.com.in/in/farrah-thar-wat-cairo.html](https://www.linkedin.com/in/farrah-thar-wat-cairo.html)AI & MACHINE LEARNING

ENTHUSIASTIC TECHNOLOGIESTechnologically adept with a strong foundation in

AI and machine learning, skilled in Passionate about innovation, quick to learn new technologies, and ready to contribute to forward-thinking companies. EXPERIENCE

Machine Learning Engineer Intern NeuronetiX | August 2024 - October 2024 Data

Analyst Intern Ayman Afandy LLC | August 2024 - September 2024 Internship Trainee

CIB Egypt | August 2024 PROJECTS Plant Disease Detection and Categorization

Compared the performance of DenseNet, Xception, and ResNet architectures, trained from scratch, to detect and categorize plant diseases. GitHub Linked-NLP Sentence

Similarity ModelsDeveloped advanced sentence similarity models using Siamese

networks and Hugging Face transformers. Advanced House Pricing Prediction

Created predictive models using Support Vector Machines and linear regression..

Video Sharing Application Built a full-stack YouTube-like application, including user data handling, video uploads, and streaming capabilities. Bug Tracker Desktop

Application (Bug Tracker)Designed and implemented a Java-based bug tracker,

integrated with a database for efficient software issue management. Movie/TV Shows

Reviews Front-End Web Application Designed and implemented a dynamic front-end web application for reviewing movies and TV shows.

SKILLS: Artificial Intelligence, Machine Learning Algorithms & Deep LearningSharing: Machine Learning, Deep Learning, Artificial Intelligence and Machine

LearningProgramming: Python, Java, SQL, C/C++, C#, C++, and moreData Analysis

& Preprocessing: Data Analysis, Preprocessing, Data Acquisition, Data

Mining,Statistical Analysis, and Data AcquisitionSharing.Communication & Team
